MONEY, STOCKS AND GRAIN

Trading on New York 'Change, Saturday, Practically at a Standstill.

Few Changes in Quotations Expected Until Semething Is Done at Washington-Indianapolis Cereals Show a Better Tone.

THE BOND MARKET.

Ballway and Other Issues Dull and Weak -Sales Only \$182,000. At New York, Saturday, money on call

was nominally 8 per cent. Prime mercantile paper, 8 to 12 per cent, Sterling exchange was firm, with acfual business in bankers' bills at \$4.83@ 4.88% for sixty days, and \$4.87@4.87% for demand: commercial bills, \$4.81@4.864.

Silver certificates 78c. Bar silver closed at 7314c per ounce; Mexican dollars at 59c. At London bar silver closed at 3334d.

It is only necessary to state that the total sales of stocks for the two hours of business on the New York Exchange, Saturday, were 43,195 shares to give a clear idea of the prevailing lack of interest in the stock market. Before the bank statement was issued the room devoted its time to guessing the amount of probable gain or loss in the reserve. After the exhibit operators were busy sualyzing the report. In the meantime speculation in stocks languished and but few issues showed any material change for the day. The bank statement was generally accepted as favorable and it contributed to the firmness which characterized the closing transacsions. The tone for the day was rather better. La Toursine brought \$1,348,200 in French gold, and the Etruria was reported down the bay with \$1,850,000 additional on board. From St. Paul it was announced that the Milwankee National and the Commercial National banks, which recently enspended, have decided to reopen. Of the half dozen roads which submitted traffic statements for the second week of August, only one, the Louisville & Nashville, showed a decrease. It should be stated that the last named reported a decrease of \$67,400. Still there was little disposition to trade, and it is quite likely that no important movement in the stock market will take place until something definite is heard from Washington in monetary matters. In detail the market opened quiet, generally lower, Man-battan and General Electric being the weekest. Distilling and Cattle Feeding then developed strength, rising to 19%. The general list then advanced 4014 per cent. The market closed quiet and firm. Railway and miscellaneous bonds were dull and weak. The sales were \$182,000. Government bonds were firm. State bonds were dull. Closing quotations were:

Four per cent. reg.11112 Louis. & Nash.... 53 Four per ct. coup..11112 L. & New Albany. 10 Pacific 6's of '95. 103 Missouri Pacific.. 20 Atchison. 15 N. J. Central. 921
Adams Express. 133 Northern Pacific. 87
Alton & T. H. 23 N. Pacific pref. 173 Alten & T.H. pref..140 Northwestern .... 931 

The New York weekly bank statement shows the following changes: 

 Loans, de crease.
 5,255,500

 Specie, increase.
 4,728,000

 Legal tenders, decrease.
 703,700

 Deposits, decrease.
 1,901,100

 Circulation, increase.
 702,200

The banks are now \$12,045,800 below the requirements of the twenty-five-per-cent.

LUCAL GRAIN AND PRODUCE.

Trade Last Week an Improvement on Some

Weeks Past with Less Fluctuations, There is no doubt that the trade of the past week was in excess of the volume of any week since July 1; still it falls short in most departments of the corresponding week of 1892. But the little improvement is hailed with pleasure by the wholesale merchants and it is thought that for coming weeks each will show some improvement over the preceding one. Prices are ruling unusually steady when it is taken into consideration that money is scarce and merchants buying cautiously. Coffees are to lower than a week ago. All other staple groceries are firm and steady. Dry goods are moving out better, with prices unchange. The provision market carries a firm tone on most descriptions of hog prodnote. Nearly all articles in the fruit and vegetable line are in good request and prices high and firm, tomatoes and melons being

While little is said, there is more activity in the local grain market. Should financial matters soon take better shape, Indianapolis will handle more grain this fall than in any fall for some years past. Track oids Saturday ruled as follows: Wheat-No. 2 red, 5740; No. 3 red, 54c; rejected by sample, 40@50c. Corn-No. 1 white, 40 1/2c; No. 2 white, 40 1/2c; No. 3 white, 40c; No. 4 white, 30@35c; No. 2

WHEAT JUMPS 1 1-4 CENTS

After a Steady Decline for Several Days Comes a Turn for the Better.

Estimates on the Amount Exported and That Coming In Show There May Be a Decrease of 750,000 Bushels in the Visible Supply.

TRADING AT CHICAGO.

Good Cash Demand for Corn, but Provisions Suffering. CHICAGO, Aug. 19.-Enormous export

clearances of wheat and an improved New York bank statement caused an advance of 140 in September wheat to-day, 40 of which gain was still adhering to the market at the close. Corn, oats and provisions were dull, the latter extremely so, and price changes were meignificant. Wheat at the opening was % @ 4c higher than yesterday's closing, eased off a trifle, and with some fluctuations prices further advanced %c, then eased off a trifle, and the closing was steady. The exports from both coasts of wheat and flour were 1,100,000 bushels larger than the preceding week, and 2,370,000 bushels larger than thecorresponding week a year ago.

From five ports the clearances of wheat were 508,000 bushels larger, and of flour 32,-000 barrels larger than for the preceding week. The receipts at primary markets for the week were 350,000 bushels smaller than the preceding week, and it is estimated that the visible supply will show a decrease of about 750,000 bushels against an increase of 3,522,000 bushels for the corresponding week a year ago. Shorts were alarmed at the showing, and there was more doing than there has been of late. Realizing esies took some of the edge off the advance near the close.

The good cash demand and the upturn in wheat gave corn some suport. The trading was entirely between put and calls prices and no outside business. The range Clover seed dull and steady; prime, to did not exceed 40. It seemed one long yawn in the oats, so

night's figures. Provisions suffered from neglect. Pork was marked up a little, but there was no business done in it. Lard opened .05e off and scarcely moved after that. September is .071/20 lower and October .050 lower than on the day fore. Ribs were in rather better demand and at the close were bringing . 10c advance for September and .05e gain for October. Hog receipts were 15,000, which is considered liberal for the last day of the

Freights were dull, but with offerings of vessel room light. Rates remained steady at 14c for wheat and le fer corn to Buffalo. Estimated receipts for Monday are: Wheat. 85 cars; corn, 890 cars; oats, 265 cars; bogs. 22,000. The leading futures ranged as fol-

Dry Goods. NEW YORK. Aug. 19.—Some improvement was to be noted in the dry-goods trade to-day, partly in the way of a better feeling and partly through an increase in the number of transactions, including one or two of some importance. Whether this is spasmodie or indicative of a growing business only time can disclose, but it is time there was more doing. Brown cottons can now have the leading attention which class of goods would undoubtedly move first. Beyond this there was no change. Opinions are divided as to the outlook. Jobbers are selling some goods, of course, and have small supplies in many instances, but they are not anticipating the future. Exports are taking some cottons for Eastern markets, which is a feature of encour-

ST. LOUIS, Aug 19 .- The wool market shows no change; certainly none for the better. The fact is that there is really no market at present, as conditions in all branches of the wool manuacturing industry are in such demoralized condition as to completely discourage the buying of the raw article. What adds to the depression is the fact that there is no hope for improvement until the financial situation becomes more set-A Metals Danal I co

[From the Second Edition of the Sunday Journal.] Fast Time at Fort Wayne. FORT WAYNE, Ind., Aug. 19.-The great

stallion, Roy Wilkes, assumed the distinc-

tion of a world beater on the Fort Wayne

track to-day, in the presence of a large

audience. In the first heat of the

free-for-all pace he lowered the stallion rec-

ord of Guy of 2:06% to 2:06%, in a race, Di-

rect holding the record at 2:05 4 against time. Mascot was the favorite in the betting, and came in second. going the mile in 2:074. He was afterwards drawn on account of iliness. The track was in superb condition and the weather cooler than during the earlier part of the week. The day was a little dark. Several false starts marked the first heat in the free-for-all pace, principally caused by the wildness of Strong Boy. Who looked like a dangerous competitor for Roy Wilkes, Mascot and Atlantic King. When starter Brown finally got them going they went in a banch nearly to the half, when Roy Wilkes took the lead from Mascot and then commenced the tug of war. Everybody knew that wonder-ful speed was being made and ex-

ret win the heat, but Roy Wilkes stubbornly held his advantage and amid thundering cheers dashed under the wire at the head of the pack and made himself famous in reducing the world's stallion pacing record. Rain having caused the loss of a day, the races were called this morning at 10 o'clock. Six races were paced and trotted. The heat of Roy Wilkes by quarters was :8116. 1:084, 1:35 and 2:064. Prime Dona won the race in the fifth heat. In the first heat of the 2:25 page Will Kerr lowered his record of 2:12% to 2:10 and in the second heat to 2:08%. Will Kerr is an Indianapolis horse and seems to be the coming pacer, reducing his record thirteen seconds this season. A 2:50 class trotting for \$300 was declared off on account of the lateness in the week and day. Time-2:10, 2:08%. Smallpox at Muncle. MUNCIE, Ind., Aug. 19.—City Health Officer Dr. F. G. Jackson and County Health Officer Dr. Hugh A. Cowing, and Dr. C. N. Metcalf, secretary of the State Board of Health, made public the startling announcement this evening that there are fourteen well developed cases of smallpox in the city of Munoie. Dr. F. G. Jackcases that were being treated for chicken-pox. He, with Dr. Leach, were convinced that the ailment was smallpox, and Drs. Metcalf and Cowing were to-day sum-moned to make a thorough investigation before the public should be informed. Dr. Metcalf seemed astonished at the situation. A number of the cases have been treated for several weeks. The first case developed in the family of Thomas Murray, on Macadonia avenue, as long ago as in June. At that time five members of the family, including the father, were with the plague, and five persons also in the family of Mrs. Mary Fox, near Murray's, are now down with the disease. One young woman at the home of A. N. Shutthere are cases at the homes of Arthur Van Metre and Emily Russey. These are all in the southeast part of the city, in the factory district known as "Industry." Another new case at the home of E. Campbell, in the Avondale district, was reported this evening. The following card was issued late this

Will Kerr by Ethan Wilkes (Shanks) ......1

evening: In connection with the city and covnty health officers we have instituted strict quarantine in the infected smallpox district. The law must be strictly enforced, and for that purpose the health officers, Drs. Jackson and Cowing, will adopt all necessary and Cowing, will adopt all necessary regulation to that end. Let every citizen aid them in their efforts to exterminate the disease. I would also ask that the people do not become alarmed or panic stricken, because the health authorities will take every precaution and will undoubtedly control the spread of the disease. C. N. METCALF.

Secretary State Board of Health. This evening small-pox flags were dis tributed and placed conspicuously on each house where the cases are confined. By order of Mayor Brady, Dr. Leach was engaged by the city to take charge of the cases. Dr. Leach was in charge of the disease here in 1876, when there were fifty-two cases. Out of this arge number at that time only five proved fatal, Physicians Bunch and Cowing. who have been treating the cases, are being criticised severely, and it is considered a wonder that whole city is not infested. All the patients have been strictly quarantined, and the disease will be stamped out as quickly as possible.

Fire in a Marion Skewer Factory. Marion, Ind., Aug. 19.—Fire destroyed the upper half of the Swezey & Johnson skewer factory here to-day. The fire department was crippled by the repeated breaking of the bose. Insurance men place the loss between \$4,000 and \$5,000. A large amount of stock was destroyed and much of the machinery ruined. The plant was valued at over \$25,000. The cause of the fire is unknown. The insurance is as follows:

tile, \$2,500; Niagara, \$1,500; St. Paul Fire and Marine, \$1,000; Fire Association of Philadelphia, \$1.000; Pennsylvania Fire, \$1,000; Liverpool, London and Giobe, \$1,000. Total, \$16,000. Deadly Mine Explosions. BERLIN, Aug. 19.—The Kaiserstuhl coal pit, at Dortmund, in Westphalia, was, today, the scene of a terrible mining accident. An explosion of fire damp occurred

in the pit, killing lifty persons and injur-

ing many others. It is feared that some of

Royal, \$2,000; Western of Toronto, \$2,000; Northern London, \$2,000; German American of New York, \$2,000; North British and Mercan-

the injured will die. The Useful Skunk,

New York Times. The true usefulness of the skunk is fast becoming understood. When the sun sinks low and the injurious worms begin to feed and out the corn the skunk, holding his head down to the ground, walks slowly, listening intently at each plant, and, hearing the movements of the worm, he digs it out with his snout and quickly swallows it, of which a hundred hardly suffice for a meal. This animal has some disagreeable habits, it is true, but it is to be taken with all its faults and made the best of for what It really is worth.

## THE INDIANAPOLIS JOURNAL DAILY.

SUNDAY

WEEKLY

The Journal's price for daily is only 15 cents a week, and it has a very wide circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate a continued increase, and that what used to be regarded as a luxury has become a necessity. The new readers not only remain, but they are constantly increasing.

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence and importance. This want the Journal has always supplied as no other paper pubished outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The running of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote countles there is but little loss of time in trans-

The Journal is the paper for Indianians and particularly for Indiana Republicans. The change of administration involves the settlement of political problems likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to every hing having

a possible bearing on Indiana interests. But though the Journal is Republican in politics it is non-partisan in the pubheation of news. Its constantendeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the correspondents, and furnishes careful supervision for each department.

The Sunday Journal has a well-estab-Mehed literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispensable in every well-regulated family.

The Weekly Journal, at \$1 per year, contains more reading matter than can be obtained for the money in any other shape. It is carefully edited and offers the news of the week in condensed shape and a variety of miscellany. agricultural and household literature that render it one of the best investments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it an easy matter to secure large lists of subscribers. Special inducements offered to agents.
